

PRESCOTT AREA

WOODTURNERS

P.O. Box 11780
Prescott, Az. 86304

Our March meeting was held on March 14th at which time Paul Porter from the Phoenix club did a demonstration on hollow turning. As in the past Paul did an excellent job. Paul cut away the side of a hollow turning so we could see the tool worked on the inside of the turning. If you ever wondered how that tool works when you normally can't see the cutter, Paul answered your question. Some of us blow out the side of a hollow turning but Paul cut the side away and still turned a great project. We always enjoy having Paul join us and hope to see him again soon.

Our next meeting will be held on April the 11th at Antelope Golf Club. The times are 1pm to 4pm. This month I will be the presenter talking about wood selection and possible cuts to get the desired end results. Don't forget to bring a good piece of wood for the raffle as well as your show and tell items.

We have two events coming up that you need to be aware of. On April 18th the WILD FIRE EXPO will be held on the East side of the Court House. We have been a part of this for the last several years and wish to do so again. This year Ken Fulkerson will be in charge of getting help to set up and have a fun day talking to people about how we use wood from all sources to make turnings.

Our first sale of the season will be May 9th and 10th. Doug Askerman from the board will be in charge of the weekend. Those planning to sell will need to help for set up, turning and selling as well as tearing down.

Hope to see everyone at the April meeting. Larry Dorrell
