

## PRESCOTT AREA

### WOODTURNERS Prescott Area Woodturners Post Office Box 11780 Prescott, Arizona 86304

Our next meeting will be held June 13, 2009 at the Antelope Golf course. This meeting we will have JASON CLARK from the Phoenix club show us how to build a vacuum chuck for turning on the lathe. Jason plans to show us how to accomplish this on a limited budget. He will also give a list of sources for items you need to build the vacuum and rotary adapter. This will be a great topic as most all of us don't have a vacuum chuck.

The business part of the meeting will be a discussion on the results of the May sale and the upcoming sale in August. We also need to talk about the BBQ we have had in October the past two years. Fred is scheduled to have back surgery the 24th of this month and he may not be up to hosting the event. Bring ideas as to what we might do this October.

Jim St.Germin, would like to have the videos that have been checked out returned more timely as several members have been waiting to see some of the newer ones. Please bring them to the meeting if you can.

The club has a new shipment of sealer in and if you are running short now is the time to stock up. The cost has gone up, as most things have, so a gallon now cost \$14.00. If you have one of your old containers, bring it to the meeting to be filled.

### The Way We Were

The old newsletters of May 2000, are in my files and it is interesting to see that some things never change. Several of the issues we face today as a club were also issues in 2000. However our club has grown and done very well in the financial area. I read the old newsletter for the May sale and would you believe Fred was asking for help to set up and take down. Don Jordan was also doing a break down on the sale results. The balance in the club treasure in May 2000 was \$550.00. Today in comparison we have \$5549 in our treasure and a total of 48 members. Sometimes it may seem as if nothing happens in our club but through the work of everyone we continue to grow. Thanks to everyone for being a member of the best club going.

See you June 13<sup>th</sup>!!

Larry Dorrell
