

PRESCOTT AREA

WOODTURNERS

It is hard to believe that it is already November, and there is still much turning to do. Maybe it is because the weather is still like summer, and we enjoy the outdoors rather than going into the shop.

We have several things happening in our club that you need to mark your calendar for. The first event that is coming up very soon is the Molly Winton demonstration. Molly will be holding a full day demonstration on November 22, at the Antelope Golf club. Prior emails from me have given you all of the details but here they are again. Our regular meeting for November will be held on the 22nd, which is a Sunday. Molly will start her demonstration at 9AM and run until 3:30PM. A lunch break will be scheduled at noon. The cost is \$25.00 which needs to be paid prior to November 9th. Please send your money to our post office box (Prescott area Woodturners, P.O. box 11780, Prescott, Az. 86304). We need you and a guest to pre register so food can be ordered for lunch. This will be a great day so plan to arrive early to get a cup of coffee and a good seat.

The month of December is when we have our sale at the Stocking Stuffer. This is our main money maker for the club each year, and it is important that we have lots of items to sell. Jim Cox will ask each of us to commit to an item count at our November meeting so be thinking how many items you can make. The date for the Stocking Stuffer is December 19th.

In December we also have our Christmas party. We will hold it on Monday night December 21st, at the Manzanita Grille, located at the main club house of Antelope Golf Course. We will have a menu very soon that will allow you to choose from a couple entrees.

We had a great time at our BBQ last month and we want to thank Ed and Twila Jones and Wayne and Marge Hunt for all their planning and hard work. The

crowd numbered almost 40 strong who produced enough food for twice that number. Thanks to everyone for a fun time.

For Sale Item & BBQ Pictures:
